Start the next course

Congratulations on completing Course 6 of the Google UX Design Certificate!

To make continuing with the certificate program easy, here is a link to Course 7:

[Design a User Experience for Social Good & Prepare for Jobs](#) . You may need to enroll in the final course of the program, if you have not already.

In Course 7, you'll design a dedicated mobile app and a responsive website focused on social good. You'll showcase all that you've learned during this certificate program to complete the design process from beginning to end: empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes, and testing designs to get feedback. By the end of the course, you'll have a new cross-platform design project to include in your professional UX portfolio.

Course 7 will also prepare you to land your first job as a UX designer. You'll learn how to interview for entry-level UX design positions. You'll get tips from Googlers based on their own interview experiences and their unique perspectives as hiring managers. And, you'll polish the professional UX portfolio you've been building throughout the program so that it's ready for job applications.

There's only one more course until you complete the certificate program, earn your badge, and connect with employers. You are so close to the end. You can do it!
