

## Drinks Page

"I wonder why the drinks menu is not similar to the meals one, they don't have the same soul"

Scrolled up and down many times looking for the drinks in the meals page

Participant didn't like the placement of the Drinks menu

" I can't go directly to the drinks menu from here (Breakfast page) !! "

frustrated for not being able to go directly from meal menu to drinks menu

## Orders Page

Kind of lost, took the long way (to finish the 1st task)

" I would've liked to keep seeing the cart (orders) button all the time while using the menu "

Didn't find the order page easily

Hesitant to order, Not sure what to press

" Where is the order button "

## Others

Participant was surprised with the amount of (Best Sell) options

" That much!! hahaha " Talking about the Best sell options

" That's cool " referring to the pay with your contactless card feature.

## Receipt

Seemed a bit annoyed of the fact that there is no receipt after finalizing the order and paying

Surprised (No receipt)

" How can I take the receipt home "

would've liked to get a receipt upon completion of the payment

"I'd like to see a receipt of the order when I'm done"

" Do they send me the receipt to my E-mail "

## App Maneuver

" Easy " go to Best sell and add a meal

Moving between pages easily

" I already know how to add it ( Add the drink) "

Seems comfortable using the app
