

# Share what you learned about creating digital wireframes in Figma

Now that you've learned how to create digital wireframes in Figma, share what you've learned. Consider the following questions in the discussion forum:

What skills and ideas did you learn while creating your first wireframe in Figma?

Are there any suggestions or tips you'd like to share with fellow learners?

What parts of your design did you refine and polish as you moved from paper wireframes to digital wireframes?
