

1. How does a portfolio help UX designers find work in their field? Select all that apply. 0 / 1 point

☒ A portfolio showcases a designer's understanding of UX design principles.

☒ Correct
Showcasing an understanding of design principles helps designers find work, and it's a great way to start feeling like a member of the UX design community. Portfolios also demonstrate the designer's skills during the job application process.

☒ A portfolio can highlight a UX designer's skills during the job application process.

☒ Correct
A portfolio showcases a designer's work and skill in the field, as well as their understanding of UX design principles.

☒ A portfolio includes a 1-page summary on why a designer would be a good fit for an open position.

☐ This should not be selected
A portfolio highlights examples of a designer's work, skills, and understanding of design principles in a creative way. It does not include messages from designers to employers explicitly stating why they would be a good candidate for an open position.

2. What is a design portfolio?

1 / 1 point

- ☐ A collection of social media posts that demonstrate a designer's work history
- ☒ A collection of work that demonstrates a designer's skills during the job application process
- ☐ A collection of design work that includes the top designers in a field
- ☐ A collection of professional references complete with phone numbers

☒ Correct
A design portfolio is a collection of work that demonstrates a designer's skills during the job application process. It is likely hosted on a website.
