1. A design team completes their high-fidelity prototype of a responsive website. Before they hand off designs to the engineering team, they need to confirm that the designs are final. What questions should they answer before handing off the designs? Select all that apply. 1 / 1 point

- ☐ Have the engineers written code for the website's architecture and data storage?
☒ Have placeholder text, icons, and imagery been replaced with finalized assets?

✓ Correct

- ☒ Are the designs a true representation of the intended user experience?

✓ Correct

- ☒ Are users able to interact with and interpret the designs without external guidance?

✓ Correct

2. The design team has questions about changes made to the user interface on their responsive website during the coding process. Who should they reach out to? 1 / 1 point

- ☐ Back-end developer
☒ Front-end developer
☐ Team leader
☐ Project manager

✓ Correct

3. Fill in the blank: In Adobe XD, you can upload to the cloud from the _____ panel. 0 / 1 point

- ☐ upload
☐ design
☒ file
☐ assets

✗ Incorrect

Review the [video on handing off designs in Adobe XD](#).

4. A designer finishes their prototype in Adobe XD. It includes client content that is protected under a non-disclosure agreement. They want to share the prototype with developers. Should the designer set permissions so that viewers need a password to access it? 1 / 1 point
- ☒ Yes, this is the most secure way of sharing a link.
- ☐ No, the link will automatically have security settings enabled.
- ☐ Maybe, if the client has specifically requested it.
- ☒ Correct
5. A design team completes a final prototype of a pet adoption app in Adobe XD, and wants to share their work with the development team and client. Before they publish the prototype on the cloud, they name the file. Which of the following example file names reflects best practices? 1 / 1 point
- ☐ For-Review
- ☐ App-Version
- ☒ PetAdoptionApp-Version-Final
- ☐ App-To-Test-Review
- ☒ Correct
6. What can a case study demonstrate to a recruiter or hiring manager? Select all that apply 0.75 / 1 point
- ☒ Ability to see an idea through from start to finish
- ☒ Correct
- ☒ Design knowledge
- ☒ Correct
- ☒ Feedback from clients
- ☒ This should not be selected
- Review the [video on adding a project to your portfolio](#). 
- ☒ Willingness to collaborate
- ☒ Correct

7. Imagine a designer finishes a client project and wants to write a case study. They draft a case study that describes their role in the project, the goal of the project, and the target user. They also add sketches and wireframes, and their polished designs. What critical components are missing from the case study? Select all that apply. 0.75 / 1 point

☒ The key challenges or constraints the designer faced

☒ Correct

☒ The research conducted and research findings

☒ Correct

☒ The designer's learnings during the design process

☒ Correct

☒ The designer's thoughts on how the design could be improved

☒ This should not be selected

Review the [video on adding a project to your portfolio](#). 

8. A designer is applying for a job at a new design firm. They want to highlight their ability to follow a project to completion. How can they convey this to the firm's recruiter? 1 / 1 point

☐ Submit a cover letter highlighting projects where the designer worked on a team

☐ Prepare interview responses that showcase the designer's leadership skills

☐ Ask former team leaders to submit reference letters to the firm's recruiter

☒ Share a portfolio with a case study, which demonstrates the ability to see a project through from start to finish

☒ Correct

9. You are submitting a portfolio for a UX internship. Should you include case studies written about work you completed in an educational setting? 1 / 1 point

☒ Yes. You should include case studies that represent your best design work. Case studies do not necessarily need to present work from projects with clients and companies. Feedback:

☐ No. Case studies should present designs that you have completed for companies or clients in a professional setting only.

☐ Maybe. Case studies should present designs that you have completed in an educational setting, but only if these projects went as planned.

☒ Correct

10. Imagine a designer sends their portfolio to a recruiter for a potential job opportunity. One of the designer's case studies discusses how the designer worked with a diverse team for a complex project. Which case study component is this an example of? 1 / 1 point
- ☒ Designer's role in the project
 - ☐ Project goal and objectives
 - ☐ Design processes followed
 - ☐ Project outcome
- ☒ Correct
-
11. Why are case studies important components in a design portfolio? Select all that apply. 1 / 1 point
- ☒ They demonstrate your design knowledge.
- ☒ Correct
- ☒ They demonstrate your ability to see an idea from start to finish.
- ☒ Correct
- ☒ They demonstrate your willingness to collaborate with a team.
- ☒ Correct
- ☐ They demonstrate your ability to work through a project quickly.
