

Share the paper wireframe of your favorite app

You just created a paper wireframe based on your favorite mobile apps. Now, take a picture of your wireframe, upload it, and share it with your peers. Then, check out some of your peers' wireframes and comment on at least two of their posts. Consider the following questions in your response: Can you identify which app home-screen they chose?

What did you like?

Is there anything you were confused about?
