Project Title \*

User Personas for Hospital Receipt App

Submit your persona files as a slideshow, with each persona on its own slide. To submit your persona file, you need to upload it using the button below. *Note: If you created your persona in Google Slides, you need to go to File -> Download -> PDF Document to save your file as a PDF on your device first. Once your file is saved to your device, you will be able to upload it.*

Before submitting, check that you can answer yes to the following questions related to your submission:

1. Did you include two personas that each represent a different group of users?

2. Do both personas contain avatar images that represent them?

3. Do both personas contain relevant personal and demographic information?

4. Do both personas include relevant quotes to communicate their attitude and personality?

5. Do both personas include a list of goals the persona wants to complete?

6. Do both personas include a list of frustrations for issues they enter or try to avoid?

7. Do both personas include a brief scenario that conveys the persona’s user journey with goals, frustrations, and other relevant context?

8. Do both personas contain key differences to demonstrate that they represent different groups of users?
