# Activity Exemplar: Create grids in your portfolio project mockups

Here is a completed exemplar showing how grids were applied to the Zia's Pizza app, along with an explanation of how the exemplar fulfills the expectations for the previous activity.

⭐ Exemplar

🔍 Assessment of exemplar

Assess the mockup grids created in the activity, using the criteria below.

In the exemplar, a grid has been added to each Frame using the recommended Layout Grid settings. UI items have been added to the frames, and these items have been placed to align with the grid. For instance, the buttons span the width of the grid and are aligned to the edge of the columns. The icons in the header and the image for "Today's Top Pizza" also have their edges aligned to the grid.

Compare the exemplar above to your completed deliverable. What did you do well? Where can you improve? Take this feedback with you as you continue to progress through the course.
